EVANS

SUPER WHITE SNOW FLOCK

Increase your profits with beautiful trees flocked with Evans Flock!

MADE IN USA

- ***25lb Bag***
- ***Flame Retardant***
- ***Super White***
- ***Highest Yield***
- ***Superior Adhesion***

Guidelines to successful flocking: The key is to experiment! Try different techniques to find that pattern that makes your creation a beautiful natural looking snow covered tree. Some of your customers will want the branches loaded down with flock, others will want the tree lightly flocked for a more natural look. To help you get started we have listed a few helpful hints:

1. Set up is important! You need a dry flocking area, preferably an enclosed booth.
2. Before flocking, thoroughly mist tree with water.
3. Adjust the flock flow on the machine to light flow until you feel comfortable with the flocking process. Begin flocking from top to bottom with pendulum pattern. Apply continuous mist of water to activate adhesive and flame retardant.
4. Drying time varies with climate. Trees flocked at night should be ready for sale the next morning. Use a heater on cold humid days to keep moisture down to aid in drying flock.
5. Flocked tree prices vary according to area. A general rule of thumb is approx.-mately $12.00- $15.00 per foot plus the price of the tree.
6. Flocked trees sell early in the season. Have a selection of flocked trees on display when you open and keep a good selection flocked in advance.

FLOCK AND FLOCKING ACCESSORIES

Dry Flock Color

Add directly to white flock in machine. Remember you are adding to white , several pounds may be needed to reach desired color. Just adding 1 pound of color will produce pastel colors. It's a good idea to mix a test before putting flock in machine to see what ratio of color to flock will produce your desired color. NON-TOXIC

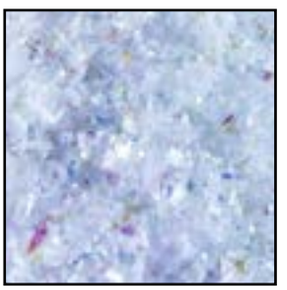
$11.50LB

Pearlescent Flakes

Pearlescent flakes are used to give the tree that fresh icy snow look. Just sprinkle (by hand) on WET flocked tree before the flock drys to give the tree an iridescent sparkle.



1 LB BAG
PEAR001- $12.80
5 LB BAG
PEAR002 - $57.50 (11.50)
20LB BAG
PEAR004- $215.00 (10.75)

MICA Flakes

Mica is a natural product (mineral) with a brilliant sparkle appearance. The word mica is thought to be derived from a Latin word meaning "to glitter". Being a natural product you can mix mica directly into the flock. As the flocked tree drys you can see the shimmer come through for a fresh snow look.

MICA010- $50.00 10 LB

Metal Glitter

One Pound Bags of small cut glitter! Sprinkle on tree or greens after flocking while tree is still wet. Great for craft projects.

$15.95lb.

EVANS "BIG RED" STAND

The "Big Red" is fabricated from heavy steel pipe and 1/2" square bar on the 8" and 5/8" on the 12". The tree is secured with four 5/8" set screws with T-handles for easy tightening. Hardened steel nail in the bottom of the pot secures butt. Leg span prevents trees from tipping. This is a no labor lifetime stand.

Designed for larger trees, the 8" Big Red has a leg span of 44" and sits 12" high in the center. It will hold trees up to an 8" diameter butt.

BIGR008- $178.50 EACH wt.35lbs.

The 12" Big Red has a leg span of 60" and sits 18" high in the center. It will hold trees up to a 12" diameter butt.

BIGR012 - $ 260.00 EACH wt. 85lbs.

EVANS WOOD STANDS

The wood stand is still by far the most economical stand! Excellent for Flocked trees.

Wetting stands before assembly will reduce splitting. Saw a fresh cut on tree before installing. Use a 40D common nail for the center. Secondary nails are recommended (12D-16D) to securely fasten stand.

Bracing is also recommended on larger trees.
Bowl self seals around nail

Bowls and nails not included - please see next page

MITCHELL WREATH RINGS

For machine assembly of wreaths

Specially selected ring wire that is designed to be strong, resistant to sagging or warping and yet assure strong welds. A patented wreath ring production process that allows Mitchell Metal Products to combine two distinctly different steels together to create welds that are unbelievably strong. Cutting of wreath materials is one of the most important steps in wreath production. Boughs should be cut as uniform in length as possible. 8" to 10" long pieces work well for 12" rings and most specialty shapes. Longer lengths for larger wreaths.**QUANTITY DISCOUNTS AVAILABLE!**

Wreath Machine Kit

The Mitchell Metal Stand™ is designed to accommodate all Mitchell clamp machines. The entire stand is assembled in just minutes without the use of tools. Quick snap fasteners secure the legs to the frame and can be removed for easy, fast storage. The stand is built with heavy gauge steel tubing and finished with tough powder coat paint.

The 31" x 46" top is constructed of aluminum to resist rust and staining.

CLAM006- $770.85 KIT

CLAM006S- TABLE ONLY $582.50

No-Hammer™ Clamp Machine

The No-Hammer clamp machine was introduced in 1995 and has become our most popular machine. It is used for high volume wreath production. It features hardened steel adjustable jaws. The clamping action of the machine produces a flat clip profile.

CLAM003- $227.75

(Hardware pack for wood table)

CLAM010- $34.75

Mitchell Craftmaster ll™ Wreath Maker

The Mitchell Craftmaster II™ is the perfect wreath-production machine for crafters and small volume wreath makers who wish to take advantage of the time-saving advantages of clamp rings. It utilizes a gear drive system operated by a hand lever which allows this compact machine to be mounted on a table or work bench. It comes with temporary mounting hardware and bracket which can be used to permanently mount the machine. We recommend this machine for users who will produce a small quantity of wreaths each year. (some assembly required)

CLAM007-$78.30

KIRK Removal Bio-Bags™

In keeping with its environmental commitment, in mid 2007 Kirk introduced Bio-Bags™ to our line of Christmas tree support products. Our Bio-Bags™ are 100% biodegradable and can be disposed of in your recycle bins. Bio-Bags™ are an extremely convenient and clean way to dispose of your Christmas tree after the holidays.

Simply place our Bio-Bag™ under the tree prior to setting it up and you will not only protect your floors or carpet, but you will avoid the mess of removing your Christmas tree.
Our Bio-Bags™ are suitable for trees up to 7' tall and are made to resist tearing. Individually packaged.

KIRK Christmas Tree Colorant

Certain trees will naturally yellow and lose their uniform color during the winter. To avoid this problem and maintain a uniform color, The Kirk Company devoted years of research and development to formulate Super Pinegreen and Super Pinegreen Special Formula II, Virginia Pinegreen, Premium Fir Green and Leyland Cypress Color Enhancer. By applying the right colorant, your trees will look green and healthy during the Christmas season. **The recommended dilution is one gallon of colorant to 30 gallons of water. This dilution may be altered to gain the intensity of green coloration you may desire. This dilution will cover approximately 60 trees per gallon.**

VIRGINIA PINE

The surface of Virginia Pine needles is especially waxy. Our Virginia Pinegreen has been custom-formulated to coat the slippery Virginia pine needles with a beautiful color match.

2.5 gal jug

COLR004
$66.00

SUPER PINE

Super Pine Green ensures a beautiful dark green color to pines that experience a natural yellowing process in late fall from UV rays.

2.5 gal jug

COLR002
$62.50

SUPER PINE II

Super Pinegreen SF II is a deeper version of our popular standard formula for those trees that may turn excessively yellow or for customers who prefer a darker green color.

2.5 gal jug

COLR009
$65.00

LEYLAND CYPRESS

The unique color of the Leyland Cypress requires a spray specially formulated to enhance the delicate foliage.

2.5 gal jug

COLR011
$64.75

NEEDLE HOLD

Needlehold is a liquid hydrostatic sticker that forms a colorless, durable film which reduces water loss to trees and greens. Dilute one gallon needlehold with 4-6 gallons of water and spray trees or dip wreaths and greens. Great for Wreaths. Dries clear.

2.5 gal jug

COLR008
$69.50

NEEDLE HOLD XL

Extends the life of cut Christmas Trees, holly and wreaths by reducing water loss through the needles and stems. Keeps cut evergreens green for longer periods of time and reduces needle drop. NeedleHold XL improves the appearance of trees and greens by providing a healthy looking clear wet look coating.

10 to one dilution.

2.5 gal jug

COLR008XL $156.75

EverGreen™ Commercial Flame Retardant

Tested and approved to meet nationally recognized tests for Christmas tree Flame-proofing. Check with local Fire Marshal for regulations. Do not use on trees that have already started browning.

NOTE: MOST STATES REQUIRE CHRISTMAS TREES PLACED IN PUBLIC BUILDINGS TO BE FLAME PROOFED

FIRE001
$31.50 / 1 gal jug

FIRE005
$146.75 / 5 gal jug
